Website packages. Business-ready details.

Choose a defined website scope, then add the setup help your business needs. These are one-time KnoxMade labor prices in USD. Applicable tax and the complete scope are confirmed in your written quote.

Starter - $249

One mobile-friendly page with up to six sections, supplied content with light editing, one contact/quote form, basic search metadata and domain connection help. One consolidated revision round.

Lead Generator - $499

Up to five pages total, including any local landing page; service/work sections, one lead form, analytics/Search Console setup and one domain forwarding address. Two consolidated revision rounds.

Business System - From $899

Lead Generator plus one defined booking/intake workflow in an existing tool, a first full mailbox in place of forwarding, basic Google profile assistance if eligible, one signature and a 30-minute handoff. Two consolidated revision rounds.

Custom Apps & Tools - Custom quote

Android and iPhone apps, bespoke web apps, staff dashboards, additional workflows and advanced automation are scoped separately.

Optional monthly care

Care $39/month: monthly checks, a brief summary and up to 30 minutes of minor content updates.
Local Growth $79/month: Care plus up to 60 additional minutes of agreed local content/landing-page improvements, for 90 update minutes total.

Unused update time does not roll over. Bigger changes, new apps, campaigns and emergency work are separately scoped. Hosting, domains and provider subscriptions are separately quoted; care is optional. A source/deployment handoff can be discussed.

Existing quotes and introductory commitments keep their agreed terms. The earlier $125 Starter / $250 Lead Generator offer was for the first three paid website customers; eligibility is confirmed individually. Current package prices apply to new quotes outside that offer.

Business setup.
On its own, or together.

These one-time setup fees pay for KnoxMade's labor. Your domain, mail, calendar and business profile remain in your own accounts; provider subscriptions are paid directly by you.

Service	Fee	Starting scope
Domain email forwarding	$29	One address, one destination, receive test
First full mailbox	$69	One domain/provider/user; DNS and send/receive test
Additional mailbox	$25 each	Per additional user on the same domain/provider
Google profile setup	$99	One eligible profile; basic verification assistance
Google profile cleanup	$59	One existing profile's basic details and links
Facebook business Page	$49	One Page, supplied branding/details, site/action link
Booking setup	$99	One simple flow/calendar in an existing tool
Review link + QR graphic	$39	One destination and branded graphic; printing separate
Analytics + Search Console	$49	One site; baseline properties and setup check
Email signature	$19	One user with basic setup instructions

Included services are not charged twice.

Lead Generator includes forwarding and analytics. Upgrade its first mailbox during the initial build for **$40** instead of adding the full mailbox setup fee. Business System includes the first mailbox, basic Google profile help, analytics, signature and one defined workflow.

Optional Business Launch bundles

Starter Business Launch - $398: Starter + first mailbox + Google profile assistance + analytics + signature. $485 separately; save $87.
Lead Generator Business Launch - $618: Lead Generator + mailbox upgrade + Google profile assistance + signature. $657 separately; save $39.

The quote confirms fit and profile eligibility. Forwarding receives mail; a full mailbox also sends as your domain. Old-mail migration, account recovery and complex troubleshooting are separately quoted. Google Business Profile itself is free: KnoxMade charges for assistance. Verification, rankings and leads are not guaranteed. Review requests seek honest feedback without incentives or positive-only filtering.
